THE WORLD CALENDAR

The "World Calendar" shown below is being advocated for Universal use by the World Calendar Association Inc., 630-5th Avenue, New York 20, N. Y.

In this Improved Calendar:

- Every year is the same.
- The quarters are equal: each quarter has exactly 91 days, 13 weeks or 3 months; the four quarters are identical in form.
- Each month has 26 week days, plus Sundays.
- Each year begins on Sunday, 1 January; each working year begins on Monday, 2 January.
- Each quarter begins on Sunday, ends on Saturday.
- The calendar is stabilized and made perpetual by ending the year with a 365th day following 30 December each year. This additional day is dated "W," which equals 31 December, and called World Day, a year-end world holiday. Leap year Day is similarly added at the end of the second quarter. It is likewise dated "W," which equals 31 June, and called Leap year Day, another world holiday in leap years.

You can't win! After months of indiscriminately getting 1st lge. air envelope for one short letter, & then small one & so on without rhyme or reason, I asked with an apology (I don't want to seem fuss budgety) why do you use lge & small envelopes for l.p. letters (on this pap). Oh! I thought you wanted to enclose something. [There was no indication of it in letter, and nothing had been said about that in dictation.] Now she puts on front light, because at dark day, when I used to turn it on, before she arrived she said it shined into her eyes and couldn't work that way. The locker mounted steel then after few weeks would not trade.

MEMORANDA Varadero
Cuba
Jan 23 - 28, 1957

The horse and mule live 30 years
Yet know nothing of wines or beers

Most goats and sheep at twenty die
And never tasted Scotch or Rye

A cow drinks water by the ton
So at 18 is mostly done

The dog at eighteen cashes in
Without any aid from rum or gin
A cat in milk and water soaks
And then in 12 short years it croaks

Your modest, sober, bone dry hen
Lays eggs for hogs, then dies at 10

All animals are strictly dry
They sinless live and swiftly die
But sinful, ginful, rum soaked
Survives for 3 score years and 10
While some of us, the mighty few
Stay pickled till we're 92
